Books

The Library has recently reorganized its travel section to make finding the books you need easier! Now, all travel books can be found next to the new books section. Their spine labels have been edited to include the continent, country, and sometimes city they cover.

Looking for **France**? Find the **Europe** section (in alphabetical order between **Asia** and **North America**) and then find **France** right after **England**.

Be sure to fill out the survey next to the travel section to let us know what you think about the new arrangement.

Language-Learning

Use these tools to brush up on a foreign language before you travel.

Pimsleur Audiobooks

These “quick and simple” CDs come in a number of languages: German, Russian, Italian, Spanish, Japanese, and French.

Little Pim

The library carries videos to help children learn key vocabulary and phrases in a number of different languages, including English, French, Spanish, Chinese, German, and Italian.

Rosetta Stone

If you need some in-depth language study of either Spanish or English, Rosetta Stone – a combination video/audio/computer program – is the way to go. Ask at the circulation desk for a laptop and the CD.
